Introduction

The Peter B. Kline Papers were accessioned by Wright State University Archives and Special Collections in 1986. Aeronautical engineer Peter B. Kline collected the papers and books and magazines pertaining to aviation. His large collection of books is also held by the Wright State Archives. Kline specialized in materials about the WWI era and military aircraft, in general, but his collection covers a wide range of aviation subjects.

The time span covered by the collection is 1822 to 1986, but the bulk of the materials are concentrated from 1917 to 1986.

Contained in over 46 Hollinger boxes, three of which are oversize, the collection fills 20 linear feet.

There are no restrictions on the use of these materials. However, due to the many copyrighted items in the collection, consideration of copyrights is the responsibility of the user.

Series Description

The Kline Papers are divided into seven series, as follows:

Series I: Aircraft Identification

- Subseries 1 – Aircraft by Manufacturer
- Subseries 2 – Racers and Air Races
- Subseries 3 – War Planes and Aerial Warfare
- Subseries 4 – U.S. Aircraft Identifications (mostly military)
- Subseries 5 – Multinational Aircraft (mostly military)
- Subseries 6 – Scrapbooks (includes photographs)

Series II: Aircraft Construction (Full size and models)

- Subseries 1 – Large Drawings and Blueprints of Aircraft
- Subseries 2 – Aircraft Components and Accessories/General Pilot's Manuals/
Theory of Aerodynamics
- Subseries 3 – Aircraft Colors and Insignia
- Subseries 4 – Scale Models

Series III: Aviation History

- Subseries 1 – General Aviation History
- Subseries 2 – Museums, Air Shows, and Aviation Collections
- Subseries 3 – Aviation Book Sellers and Book Reviews
