# MS-274 The Georg Gunermann Collection

## Introduction

Wright State University accessioned the Georg Gunermann Collection on June 6, 1996. The collection consists of one photographic album that depicts his early flying career, parachuting, flight school and barnstorming. It provides valuable insight on the aviation community in pre-Nazi and early Nazi Germany. Most of the photographs in the collection are identified and dated (approx. 1918-1936). There are no restrictions on the use of this collection.

## Biographical Sketch

Very little is known about Georg Gunermann. He took pilot training towards the very end of World War I in August of 1918. He trained at *Flugwerft Schleißheim* and *Flugwerft Milbertshofen*, not far from Munich. *Flugwerft Schleißheim* was reopened to exhibit aircraft as part of the Deutsches Museum in 1992. Following the war, he was employed as a parachute demonstrator, *Fallschirmunternehmer*, and he owned a parachute company with his partner Peter Bäumler. Gunermann and his associates performed at numerous air shows across Germany, Switzerland, and Holland throughout the 1920s and into the 1930s. No information concerning Gunermann after 1936 has been discovered thus far.

## Scope and Content

The Georg Gunermann Collection features numerous black and white photos of aircraft and parachute exhibitions that performed at air shows throughout Germany during the 1920s and early 1930s. Some of the photos detail the flight training he took at the end of World War I. The majority of the photos are framed by descriptive captions. As well, there are newspaper clippings covering the various air shows.

### Series I, Photograph Album

Series I contains Georg Gunermann's entire photo album, pictures dating from 1918 to 1936. The album is entitled "*Aus meiner Fliegerzeit*" (My Time Flying). Gunermann identifies himself in photos with an "X". As well, he abbreviates his name as "G." The † symbol indicated someone who is deceased.

## Container Listing

### SERIES I: PHOTOGRAPH ALBUM

Researchers please note that the pages of the album have been divided into quadrants for description. This means that the photos are listed starting in the top left-hand corner working clockwise around the page. If a caption is repeated, it is intended for multiple photographs. Some pages may be out of order chronologically. However, this reflects their original order.
