Scope and Content

The contents of the International Cyclopedia of Aviation Biography (I.C.A.B.) document prominent early aviation pioneers and aviation industries. The documentation was collected by William Hamberger of Beacon, New York during the late 1920's and early 1930's.

Series I consists of 33 Hollinger boxes which contain files on individual men and women who were pioneers in the field of aviation. Items included are newspaper clippings, biographical information, correspondence, photographs and other related materials. Also included are individual men and women who were consulted for the Cyclopedia, but are not related to aviation.

Series II are miscellaneous files on subjects including aeronautical associations, flying magazines, famous aircraft, air shows, etc., and span the dates from 1911 to 1936.

Series III are newspaper clippings dealing with aviation. The files are arranged chronologically from 1928 to 1939.

Series IV contains company records and documents for the International Cyclopedia of Aviation Biography and the Beacon Soap Company. William Hamberger was also a chairman of the Beacon Soap Company. The I.C.A.B. records include lists of people whom they have received information from and also those who have approved their biographies among other documentation. The Beacon Soap Company files contain a minute book, job orders, and photographs of the Beacon soap Company, Inc. ca. 1925.

Materials in the file folders are arranged in chronological order.

Series I: Individual Files

Box	File	Name	Survey	Contents	Date
1	1	Acosta, Bert	N	Clippings	1928-1933
	2	Adair, Crutchfield (Lt.)	Y		1929-1930
